On Saturday, April 17th, 2010, twenty (20) dedicated volunteers consisting of Servco employees, friends, and family members came out to participate in the Kau Kau Wagon community service project.

At Servco we are accustomed to handling all sorts of projects. However, none are more fulfilling than those which benefit the less fortunate.

Kau Kau Wagon is an organization run and founded by Sharon Black, who along with the support of her family and friends, has been serving food to the homeless in downtown for over 20 years.

Nearly all of the hundreds of individuals we served that day were very grateful for our efforts and appreciative of the food we had prepared. In addition to the sandwiches and carrots, we also handed out candy, bananas, drinks, and other snacks.

The response we received was very heartwarming and we got many smiles and words of thanks in return.

A big thank you to our team of volunteers who came out and helped those in need. Through our excellent service and dedication, it once again demonstrated Servco's commitment to having a positive impact in the community we live in.
